

# Save the Planet...

## and ££'s while you're at it!

By upgrading your existing lighting to the latest LED Technology,  
you can lower your carbon footprint and running costs!

Upgrade you existing  
Power Hungry SON  
Lowbays with new UK  
Manufactured Energy  
Saving Lowbays.

Full upgrade  
including the costs  
of an NICEIC  
Certified Installation  
paid for by savings in  
running costs.

Upto **£1000** per year for  
10 Lowbays upgraded.

Save upto **2.9 Tonnes** of  
CO2 per year for each 10  
Lowbays upgraded.

Plus, get a **5 year** warranty  
on qualifying installation.

With finance provided through the  
**Carbon Trust** and their finance  
partners Siemens.

we can offer unsecured finance for  
a complete **LED** Upgrade including  
installation with no upfront costs  
and energy savings paying for the  
installation as you go.

CARBON  
TRUST

With the majority of  
installations the savings in  
running costs are greater than  
the re-payments saving you  
money straight away.

Most of the products we supply are compliant with  
ECA requirements so you can claim **100%** First-Year  
Capital Allowance for even more savings.

**Upgrade 10**, save  
Upto **£1,000** & **2.9  
Tonnes of CO2**  
per year.

**Upgrade 20**, save  
Upto **£2,000** & **5.8  
Tonnes of CO2**  
per year.

**Upgrade 100**, save  
Upto **£10,000** & **29  
Tonnes of CO2**  
per year.

**Upgrade 200**, save  
Upto **£20,000** & **58  
Tonnes of CO2**  
per year.
